

SPECIALTY WELDING & PIPING

Four Decades of Operating Experience

Koch Specialty Plant Services creates long-term value with proven welding and piping expertise for process piping, piping component fabrication and field installation. We optimize performance in turnarounds, shutdowns and major construction projects by focusing on safety, quality, efficiency and sense of urgency.

Choose the Capabilities You Need

- Turnkey installation of combustion, vapor recovery and steam solutions
- Installation of equipment from John Zink and other manufacturers
- Onsite and offsite pipe fabrication and assembly
- Scoping, planning, scheduling and constructability reviews
- Demolition and replacement of existing piping systems
- Rigging, fitting, field welding
- Engineering, ASME and NBIC code stamps
- Heater furnace tubing, convection section replacement and repair
- Carbon steel and alloy metallurgies specialty welding
- NDE, API 570, hydrotesting, inspection services

An Integrated Network

Koch Specialty Plant Services and other Koch Engineered Solutions companies work together as problem solvers and capability builders.

- Mass transfer and mist elimination equipment
- Advanced analytics
- Combustion systems
- EPC support
- Custom heat exchangers
- Separation solutions
- Project management
- Risk mitigation
- Robotic technologies
- Ceramic and non-metallic materials
- Other innovative products and services

KOCHTM
SPECIALTY PLANT SERVICES

One stop for full service

Streamline your turnaround and get back to business more efficiently.

- Specialty Welding and Piping
- John Zink Turnkey installation services
- Project planning and scheduling
- Inspection Services
- Koch-Glitsch equipment installation
- Field fabrication and tower maintenance
- Engineering, ASME and NBIC code stamps

WE OPERATE GLOBALLY.
